

# Support the Portrait of a Graduate with Whole Child Analytics

## Turn Your Graduate Profile Into Measurable, Actionable Insight

The Portrait of a Graduate Dashboard is a powerful add-on within Whole Child Analytics, leveraging the platform's unified student data to show, in real time, how learners are developing into the leaders your community envisions—connecting outcomes to the supports that drive them.

### Unify data across siloed systems:

- Learning Management System
- Student Information System
- Assessment Platforms
- Social-Emotional Learning Systems
- Career & College Readiness Tools
- And More

**About Us:** Innive's K12 360° solutions aggregate and harmonize district data into clear, role-based analytics—empowering educators with insight tied directly to action and continuous improvement.
